

CLARESHOLM REVIEW

VOLUME 5. CLARESHOLM, ALTA., JUNE 5, 1908. NO. 14

Baseball.

Claresholm Wins 1st League Match.

On Friday last the local baseball team went to Staveloy to play their first league game for this season. The day was fine but a little too cool for good play. The composition of the two lines was as follows:—

Claresholm.	Staveloy.
J. E. Moffatt.....	Overland
Pirie.....	Miller
Ross.....	2nd B.....
Brown.....	Smith
Wannamaker.....	Johnson
Wilkinson.....	3rd B.....
Reynolds.....	Carmichael
Allen.....	4th B.....
Burton.....	Foster
	5th B.....

For the first five innings the game was as good as one could wish to see, the score standing at this time 2 to 1 in favor of Claresholm. In the sixth inning, the Staveloy team seemed to get to pieces and, in fact, neither team played as good ball from this to the end of the game. Claresholm scored four runs in the sixth, three in the seventh and four in the ninth; while Staveloy scored two runs in the sixth and two in the seventh. In the eighth and ninth innings Allen replaced Burton in the box and for those two innings had Staveloy batters at his mercy. In that time he had three strike outs and allowed no hits. The final score was 13 to 5 in favor of Claresholm.

It is safe to say that Claresholm has a stronger team this year than she ever had before. The only new players on the team this year are the pitchers, Burton and Allen, and from all appearance they will make good. Burton pitched a good steady game for the first six innings and with more practice will do still better. Allen pitched only two innings, but he shut out his opponents so easily that it is hard to say what he can do. He has, however, the appearance of a first-class man.

The Staveloy team is a good one that will have to be reckoned with before the season is closed. Considering the size of the town, the disadvantage of having most of their players on farms out of town, Staveloy has no reason to be ashamed of its team.

The Indian Won from Terway.

The ten-mile foot race last Friday afternoon between Terway, a white man, and a Peigan Indian was won by the latter, who romped in fully a quarter of a mile ahead of the naph-quin. The race was witnessed by a large number of spectators who were disappointed at the defeat of the white. Terway, it is said, was confident of victory, and went around flourishing a flat full of green plunk but as events turned out was lucky if he got no takers. Up to the end of the third mile Terway led, but after that the Indian went to the front and maintained his position there till the finish. Macleod Advanoe.

TO THE EDITOR OF THE REVIEW.

Dear Sir,—A great many people read around Claresholm are complaining about the Alberta winds and storms. I write these lines to give these kippers an idea of the sphere that fan the prairies of South Dakota. I was engaged by the Odd Fellows Lodge to lecture in Armour, South Dakota, Tuesday, May 26th. I arrived at 2 p.m. gave an address at the High School auditorium and prepared for the evening at 5 p.m. heavy clouds began to gather at 11:17 p.m. the north-western horizon looked as black as midnight. About 7:30 two funnel-shaped clouds descended like huge serpents and began to hop-stomp and jump to and fro over the prairie west of the town. Wherever they touched they left death and destruction in their wake. Barn-houses, barns, hen-houses, stacks, and fences crashed and roared in a wild chase and were hurled far and wide over the prairie and wheatfields. At 8:30 p.m. the combined clouds formed into a broad sweeping torado, advanced upon the town. The streets were filled with wide-eyed pale-faced people at 8:45. With a shriek and a roar like the breakers on the coast of Ireland, the storm was upon us and everybody fled for cover. I saw an unmanly cloud fan a magnificent new school building and its great chimneys crashed through the roof taking roof and ceiling with it then the blackness of hades, the luculent flash of lightning, the crashing of timber, the rattling of broken glass and the thunder of the hailstorm held full sway. On Wednesday the farmers came in from all directions with their tales of woe, killed stock and ruined houses. The country was flooded, these fourth gardens were ruined, over a hundred thousand dollars worth of damages had been done, but it is as if wind that blows nobody good. The carpenters were sniffling from ear to ear. They have work up till Christmas. One man dropped in to a hardware store and offered his furniture for sale at any price. He says: "I came here last year with \$1800. My first crop failed, now I am smashed up the second time in this country. I am going back to Illinois."

I am getting out of this State as soon as I can and if I don't blow away I'll be home next week. Respectfully,
GUSTAVE H. SCHOOPE,
Lecturer.

Reduce Cost of Books.

Fredericton, N. B. May 31.—The government has completed arrangements with Gage & Co. to arrange for a supply of school books. The price to the people will be reduced about one half. The government will pay freight and send vendors through the country.

General Buller is Dead.

London, June 2.—Sir Buller, who commanded the British army at the onset of the Boer war in South Africa, died this morning.

Canadian Teachers To Visit England

Mr. Nosely has succeeded in making arrangements with the Canadian Steamship Companies to take 300 Canadian teachers to England and back for \$25.00 each. Passages at this rate are available between September 1st, 1908 and February 1st, 1909. The total expense of the trip from Toronto, also a month in the Old Country, need not exceed \$125, and \$200 is considered ample to provide for extra purchases as well as for necessary expenses. The steamship travel will be in second second cabin, but this accommodation is now as good as first class was a few years ago.

Train Held Up by Four Boys.

Great Falls, Mont., May 30.—A hold up last night of a Great Northern train was the work of three boys who now occupy cells in the city jail. A fourth youth who admits having assisted in the hold up is also a prisoner. The quartette have made a complete confession to the police. The four boys are Albert Hatch, aged 15, William Randall, aged 17, Harry Blumie, aged 15 and George Cresswell, aged 16.

According to the confession the hold-up was planned and carried out under the leadership of Hatch, the youngest of the four, who is said to have turned the switch, ordered the engineer to back and to have gone through the passenger coaches with the conductor, holding the latter at the point of a gun and ordering him to collect money from the passengers. According to the other boys it was Hatch who shot William Dempsey, a passenger, on the leg, and narrowly missed shooting Conductor Hayes Blumie, who is said to have been held back that Hatch, after they had left the scene of the hold-up, suggested that they hold up another passenger train.

Railways Tied Up.

The heavy rains of the past month are completely demoralizing railway traffic in the southern part of the province. There has been several washouts on the Crow's Nest line and now traffic is completely tied up on the line between Calgary and Macleod. The bridges at Macleod and High River are unsafe and several portions of the track North of High River are under water.

The Band

The Claresholm Band propose to give a Band Concert in the I.O.O.F. Hall some time in the near future. No effort will be spared to make this a first class entertainment in every respect.

A story is going the rounds this week that a lady in town, who takes considerable pride in her flock of hens, had a batch of chickens leave the shed on one of the recent very wet days. The chickens got cold and wet so the woman gathered them together in a dish and took them into the house where they would be warm and dry. At the time the fire in the kitchen stove was very low, so the most comfortable place could find for the little chicks was on the stove. Thinking they were all right for a time she went about her household duties leaving their welfare pass from her mind. While working in another part of the house she suddenly thought of the chicks and hurrying to the kitchen she found, to her dismay that in her absence the fire had burnt up and her few chickens all dead from the effects of the heat.

Chas. Gieseler returned Wednesday from Great Falls, Mont., where he had been for several days on business. While there he invested heavily but had situated close to that city. Mr. Gieseler was on the train that was held up near Great Falls on the night of May 20th by four boys. He escaped, however, without being relieved of his ready cash. It is very interesting to hear him tell of his experiences of that night.

War and Peace. He was a natural owner of military but scarcely a good horseman. Owing even to his large and popular engagements he even the best of soldiers' best streets does not get of their tread even. His mount was fresh to an extreme and the silent figure of Sir Walter Scott, looking down upon the ascending troops from the saddle, perfectly may now have expected to see an army. This was, however, a mere thought of a small street scene which he found just out of reach of the grasp of his hands. "Boy, get away!" exclaimed the rider. "Have you never seen a war horse?" "Ah," came the answer, "but never a war rider!"—Illustrated Advertiser.
